

## My local area – art task ideas!

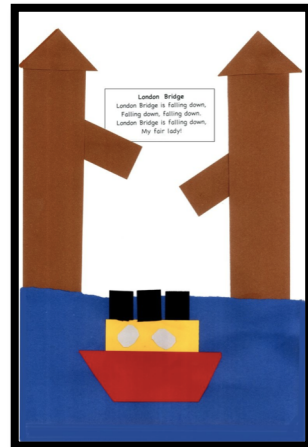

Draw, collage or sculpt (so make a 3D version):

- You could pick a building
- A road
- A special area (e.g. the lock at Enfield Lock)
- A park or a garden

Use Google Earth to draw your own version of your local area

If you could add a new feature, landmark or building to your local area, what would it be?

Can you find out about some local artists online and create an artist profile about them? Or maybe try and recreate some of their work?

Here are two local artists to get you started:

Patrick Samuel is a local artist with Asperger's who chooses to see his neurodiversity as a gift and not a disability.

Kelvin Okafor is an artist from Tottenham who draws hyper-realistic images, using only pencils.
